

## Kickstart Your Engineering Career in Green Energy!

### Engineering Apprentice (Mechatronics Maintenance Technician)

■ £8.77/hr

■ Bridgnorth

■ 40  
hrs/week

■ In-Comm  
Training

■ HNC  
Progression

#### Why Join Us?

Start your engineering career with Swancote Energy — a leader in waste recycling and green energy. Gain hands-on experience, work on real plant equipment, and be part of the future of sustainable energy.

#### What You'll Learn

- Maintain and repair high-tech engineering systems
- Work with pumps, motors, conveyors, PLCs, and more
- Build both electrical and mechanical skills
- Learn safety-first practices in a real working plant
- Split training: 2.5 days at In-Comm + 2.5 days on-site

#### Your Training Path

This is a 3-year Level 3 Mechatronics Maintenance Technician Apprenticeship delivered with In-Comm Training. Upon completion, you can progress onto an HNC in Mechatronics, opening doors to a long-term career in engineering.
